28 October 1982

MEMORANDUM FOR MEMBERS, PERSONNEL SECURITY SUBCOMMITTEE

SUBJECT: PerSSub Meeting, 10 November 1982

1. I have enclosed two documents in preparation for our next meeting:

a. 10 November 1982 Agenda.

b. DCID 1/14 Proposed Amendments.

2. The DCID 1/14 Proposed Amendments are limited to those items we discussed and, generally, agreed upon at our last meeting. These amendments are therefore limited to two new sections, Definitions and Polygraph, and will be added to the draft DCID 1/14 previously approved by us and SECOM. In the accompanying report to SECOM, on our final draft, I shall forward our recommendation that it be approved by SECOM and sent to NFIB for concurrence. I shall explain that we believe a more ambitious polygraph section (e.g., mandatory for SCI access) to be unrealistic in light of the paucity of quality polygraph examiners. Furthermore, a gradual increase in polygraph requirements within the DCID could be effected as increasing resources become available. However, to establish a stricter standard before we have resources to maintain the standard would be putting the cart before the horse.
